Message:

Mr. Bove,
The power requested (910 watts ERP) for frequency band 1950-1965 MHz is too high considering the radius of operation is only 2 kilometers. Could you lower the power to where it would be sufficient to meet the objective?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of April 15, 2008 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
