

File No. 0121-EX-ML-2013

Form 442 Question 4: Government Project Description

The requested license is necessary to perform research under National Science Foundation grant AGS-1318148 to the University of Massachusetts Amherst. This grant supports research and development of mobile phased-array Doppler weather radar and associated atmospheric measurements. The period of performance of the grant is 1 June 2013 – 31 May 2016. The cognizant program director is Dr. A. Gannet Hallar (ahallar@nsf.gov).
