Exhibit B: Experimental License Modification Narrative Statement

FCC Form 442: File Number 0160-EX-PL-2013
Confirmation Number EL745119

Medtronic seeks to modify its experimental license WG2XNT (File Number 0160-EX-PL-2013).

The changes are to modify (restrict) the frequencies of operation at our previously licensed Northridge CA locations, add a frequency tolerance to those operations, and to add 9 additional locations of operation where additional study experiments will take place.

See the technical section of our form 442.

All other aspects of our operation continue as described in our original narrative statement associated with our original Grant:
