Re: FCC File # 0036-EX-ST-2006 [Reference Number: 4085]

Dear Sir or Madam:

You have requested the geographical coordinates of the center point of mobile operations and the radius (in kilometers) from that point in which the mobile operations will be performed. The geographical coordinates in decimal notation are below. The radius of mobile operations from the coordinates given will be less than 1 km. The actual signal from the transmitter has a limited range of 3 meters or less.

Latitude	41.89439 Degrees North
Longitude	-87.62221 Degrees West

If you have questions, please call me at (410) 531-3439.

Sincerely,

Phillip Inglis
Consultant to Medtronic
