Subject: FW: FCC Form 442: File Number 0432-EX-PL-2009. Filing Needs Adjustments

In accordance with the FCC CFR 47, Part 0.457 and Part 0.459, the content of an application itself may not be held confidential from public inspection. The following items need to be viewable to public: frequency band(s), emission designator(s), power ERP, address, and coordinate(s). The rationale is, in case if an experiment cause interference to incumbent licensees, those licensees are able to find and report the interferer to the Commission. If you believe these requirements jeopardize your experiment/testing you may request for a withdraw.

Subject: FCC Form 442: File Number 0432-EX-PL-2009. Filing Needs Adjustments

Dear Madam / Sir,

I have filed online Form 442 for an experimental license. The File Number is 0432-EX-PL-2009.

I had filled out the form over a few days with the final submission and attachments completed on 11/30/2009. Due to some errors that occurred during the process of completing the form, I am requesting the following of you.

1. The entire Form 442 should be held confidential. I had marked the Confidentiality box when initiating the form but it appears on the FCC website under Generic Search. I have also request all exhibits to be confidential and they are not viewable.
2. Kindly delete the following three attachments as they are duplicates or erroneously included as attachments while completing the form. The descriptions and dates noted below are what appear on the FCC website under OET Exhibits List
 - Description 1: Description of medical device body worn networks and reason for experimental license. Date: 11/24/2009
 - Description 2: The attachment describes the justification for this experimental license. Date: 11/27/2009
 - Description 3: Request for Confidentiality. Date: 11/27/2009.

I am in the process of resetting my password so I can file Form 159 and the associated payment online.

Thank you for your assistance and please let me know if you have any questions.

Regards,
Kaezad
