Re MeshNetworks Inc (WC2XUE)

Gentlemen/Ladies

The Federal Communications Commission ("FCC") has issued MeshNetworks, Inc ("Mesh") an experimental License (Call sign WC2XUE; file number 0201-EX-RR-2005) pursuant to which Section (4) of the conditions requires Mesh to file regular progress reports.

Progress Report

Meshnetworks continues to develop technologies related to ad hoc and mesh networking. Mesh continues to operate a mobile demonstration system of it's technology in Maitland Florida in conformance with Sections (1), (2), (3), (5), (6) and (9) of Special Conditions of the License. This network is currently operating in the 2.4GHz ISM Band.

MeshNetworks expects to conduct mobile nationwide demonstrations of it's technology pursuant to Section (7) of Special Conditions of the license.

All hardware elements of the technology currently offered for sale in the 2.4Ghz band by Mesh have been granted Part 15 certification. From time to time hardware elements on the demonstration systems may be experimental in nature and not Part 15 certified.

If the FCC requires any further information regarding the activities of Mesh related to the license, please contact the undersigned.

Sincerely,

Peter Stanforth
