Message:

Hello

We propose to perform an onsite Radiated immunity test in Edgewood MD.

We shall use LPA, Bicon and Horn antennas to cover the frequency range 80MHz-2.7GHz.

TWT amplifiers rated at 20W or less shall be used to cover 1GHz-2.7GHz.

RF amplifiers rated at 250W or less shall be used to cover 80MHz-1GHz.

The test distance shall be 3m or less.
