Message:

Hello Behnam,

There are a total of 61 (47 + 14) possible testing sites. At any one time a maximum of three (3) devices would be used in point-to-point tests. As we are building ten (10) units for testing we are requesting authorization for those (10) devices, although in practice not more than 3 would be in use at any one time. Thank you for your consideration.

Bill Brown
President and Chief Engineer

P.S. Please see amended testing site list attached. Item #4 has been deleted.
