Subject: MetroFi STA 0130-ex-st-2004 EL

Mr. Kennedy,

Per your email to Dr. Schwartz, I have changed the start and end date of the STA, however I was unsure of what to change them to. I entered a start date of 21 March 2004 and an end date of 21 Sep 2004. This should be adequate amount of time for the STA.

Additionally, some of the previous ERP information was entered incorrectly (the ERP numbers entered are actually EIRP, so they must be reduced by 2.15 dB) I was going to do this, but regardless of whether I clicked "antenna data" or "freq data" on the web page, it brought me to antenna data. Since I could not get to the freq data, that remains to be modified. I will try again later.

Additionally, I would still like to talk to you briefly to ensure that you have all the information you need. If you require any additional exhibits, I want to get them to you ASAP.

Thanks
David Waitt

=====

Mr.. Kennedy,

This is David Waitt, I am a consultant helping out MetroFi with their STA / Experimental License.

FILE # 0130-ex-st-2004
Conf # EL

My understanding is that you contacted Adam Schwartz last Friday regarding some issue. Adam is out of the country for the remainder of the week and he asked me contact you. I tried to call this morning @ about 10:00 your time, but I could not leave a voice mail because your mailbox was full.

If you could try to contact me later today at my cell phone, 408 832 7053, I would really appreciate it. Metrofi is anxious to get the STA so I want to clear you any issues ASAP.

Thanks and I look forward to talking with you.

David Waitt
