To Whom It May Concern:

Micro Systems Engineering would like to request that this submission for an Experimental License, and all of its attachments and submissions remain confidential and not be made public information.

The reason for requesting confidentiality is to protect Micro Systems Engineering, Inc (MSEI) from financial harm should a competitor gain awareness that MSEI is pursuing development of the equipment disclosed in this submission. MSEI believes that knowledge gained from this experimental equipment will provide a first-to-market advantage that will provide significant financial gains.

It is requested that this submission and information remain confidential for a period of at least 2 years, as this is the expected time to bring such a product to market.

Sincerely,
Brian Sutton
Principal RF Systems Engineer
Micro Systems Engineering, Inc.
