- (4) Explanation of the degree to which the information concerns a service that is subject to competition:** The information disclosed in EXHIBIT 2 concerns the development of devices for the medical electronics industry. The medical electronics industry is highly competitive, and developing products for this industry involves a substantial degree of financial investment and financial risk.
- (5) Explanation of how the disclosure of the information could result in substantial competitive harm:** Disclosure of the information in EXHIBIT 2 will inform our competitors of technology we're employing to address a competitive market.
- (6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure:** MSEI maintains Non-Disclosure Agreements (NDA's) with all participants in the proposed research project, and vendors supplying equipment related to the proposed research project.

This period will provide MSEI suitable time to develop the product for sale in the market.
- (9) Any other information that the party seeking confidential treatment believes may be useful in assessing whether its request for confidentiality should be granted:** None.
