Subject: Reply to # 3504 for confirmation number EL481570

Dear Mr. Kennedy,
Your mail stated

"Please complete the emission designator comprising the necessary bandwidth and the three alphanumeric symbols which describe the main carrier, the signal modulating the main carrier and the type of information to be transmitted in accordance with 47 CFR, Part 2.201."

Confirmation Number: EL481570

jkennedy@fcc.gov

I have spent a fair amount of time looking for a location in the application to list the emission designator and it can't be found easily.

Being a FHSS radio generally the emission designator is not called out because the unit operates in the entire 902-928MHz range. That said I would expect the designator to be 26M0D7W.

This is a OFDM radio operating in the 902-928MHz license free rules.

Let me know if there is anything else you need.

If you have any queries, please do not hesitate to contact me at 585 242-8440:

Yours truly,

Signed:  Name: Dennis McCarthy
