Subject: FCC File #: 0020-EX-PL-2003

Message:

Dear Mr. Dennis W. McCarthy:

Pursuant to our phone conversation on January 28, 2003, please confirm that the only other locations besides the one in New York (NY) will be in California (CA) and Florida (FL).

Please verify that the antennas in the CA and FL locations are Fixed/Base units as opposed to Mobile or Base/Mobile units.

Please report the State, County, City or Town, Number and Street and the Geographical Coordinates exact to the nearest second for the CA and FL locations.

Please confirm that you authorize me to amend your application from a request for the Continental United States to only the addition of the CA and FL locations with each location having the same frequencies, powers, emissions designators and station classes as the NY location.

Please report the PEAK Effective Radiated Powers as opposed to the MEAN Effective Radiated Powers.

Also, please report the total number of devices for all locations to be used under this experimental license.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of January 28, 2003 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
