REFERENCE: OUR FILED REQUEST FOR STA FOR OPERATION AT SEVERAL 900 MHZ FREQUENCIES

Dear Mr. Young:

We spoke on Tuesday afternoon about our request for an STA at several 900 MHz frequency pairs to set up experimental point-to-point links to test a new radio product.

At your suggestion, I had a frequency search done on the requested frequencies for the area of 50 km around our base location. The results of the search, which was done by Comsearch, were e-mailed to me this afternoon, and are attached.

No records were found for usage on the requested 933.9750 - 942.9750 MHz pair.

In view of their findings, I would like to amend our request for STA to delete all requested frequencies except for 933.9750 and 942.9750 MHz.

I would greatly appreciate it if you could issue the STA for these two frequencies, and send a copy to us by Fax, so that we can begin operations.

Regards,

A handwritten signature in cursive script, reading "Jacob Z. Schanker".

Subject: Data Search

MDS.XLS

Dear Jack,

Please find enclosed an Excel spreadsheet depicting the paths with the frequency pairs within 50 kms. of the site (43-07-06, 77-36-43) you gave us yesterday. There were no records found on the 933.9750 - 942.9750 MHZ pair.

Note, that I also included information on two adjacent channel records (depicted in blue). The data is arranged by path.

Thank you for this opportunity to do business with you. If you should have any questions, or require additional information, please don't hesitate to email or call me on (703) 476-2651.

Regards,

Tim Hardy
Vice President
