

QUESTION 3A: PURPOSE OF APPLICATION

The purpose of this application is to request a new authorization for a proposed experimental system to be operated by Microwave Networks, Incorporated (“Applicant”), as described in its application. While Applicant indicated as such when completing the application in the Office of Engineering and Technology’s electronic database, it was later discovered that the system had changed Applicant’s response to Item 3A to “modification of existing license.” Applicant is submitting the instant exhibit to confirm that it is requesting authorization for a new experimental license.
