Date: May 16, 2013

Subject: FCC File No. 0338-EX-PL-2013

---

Message:

Mr. Ghaffari,

An updated confidentiality request has been uploaded to the application answering all nine questions as part of CFR 47, Part 0.459(b), with all confidentially marking removed from the request letter. It is also understood by Millennium Space Systems that location, frequency bands, emission designators and authorized power (ERP) cannot be kept from public inspection, but requests all other data be kept out of the public record.

Respectfully,

Peter Dohm
