---

Message:

We somehow did not see the email you sent us on April 3, 2012 regarding the application fee that we needed to submit with the renewal application for the experimnetal license.

WE stil have time to do it, but the first renewal application has been denied, and the online system wont let us proceed and is telling us there is a renawal ap in the system already.

How do we renew our alicence before the current licence expires.

Thank you
