

Government Contract Description:

Mnemonics, in conjunction with the University of Central Florida, has been awarded a NASA Small Business Technology Transfer (STTR) Phase II contract to research and develop passive surface acoustic wave (SAW) sensors and an Interrogator system to wirelessly retrieve data from the sensor. The Interrogator transmits an RF signal, which when reflected from the sensor and processed by the system, contains information on a parameter being sensed, e.g. temperature.

Government Agency: National Aeronautics and Space Administration (NASA)
Kennedy Space Center (KSC)

Contract Number: NNX09CB69C

Technical POC:

Name: Dr. Robert Youngquist
Address: NASA Kennedy Space Center
Code 4281A
Kennedy Space Center, FL 32899
Email: Robert.C.Youngquist@nasa.gov
Phone: (321) 867-1829

Contract POC:

Name: SBIR/STTR Contracting Officer
Address: NASA Shared Services Center (NSSC)
Bldg. 1111, C Road
Stennis Space Center, MS 39529-6000
Email: NSSC-SBIR-STTR@nasa.gov
Phone: (877) 677-2123
