Dear Mr Kennedy,

I have made corrections to the application and have entered frequencies, modulations, erp information, etc. for the experimental in building communication system.

I have uploaded attachments that I trust will better explain what is being considered.

One of the attachments was submitted with a request that it be kept from routine inspection. I have not paid the required fee for confidentiality. Is there a way I can do this on line at this point? If not, can I file via paper submission?

best regards
