Hi, Tony! Please make the correction in the experimental license issued August 20, 1999 under application number 0037 as follows:

Replace 4.8 W ERP with 48.4 W ERP

The original application was correct in stating 49 dBm, but the figure of 7.943 Watts was incorrect. It should have been 79.43 Watts.

If there are any questions, please call me.

Thanks!

Jim
