Message:

Good Morning Mr. Kennedy,

After reviewing the usage of frequency 416.75 MHz, which is being used occasionally for backward compatibility testing on our Smartnet System, we have decided to shut down the usage of 416.75 MHz. Therefore, it is acceptable to Motorola to exclude frequency 416.75 MHz from application File #0919-EX-PL-2007.

If you have any concerns, please call me at 954-723-5793.

Sincerely,

Mike Ramnath
