License KQ2XIU

EXHIBIT 1

This request for license is to permit Motorola to perform on-the-air testing of multi-channel communications systems operating in the 864 - 868 and 1457 - 1477 mhz spectrums. ***

EXHIBIT 2

A. We are requesting 40 channels in the 864.150 - 868.050 mhz range with the following characteristics:

Channel separations	None
Channel spacing	100 khz
Total number of frequencies	40 Every 100 khz beginning 864.150 ending 868.050
Power output	Mobile 100 mw ERP
Emission designator	12K0F1D 12K0F1E
Frequency tolerance	.0015%
Quantity	1000 units

*** B. We are requesting operation in the 1457 - 1477mhz spectrum with the following characteristics:

Power Output	10 Watts
Emission type	16K0F1D, 15K0F2D, 16K0F3E,20K0F1E
Quantity	100 units
Frequency Tolerance	.0002%

*** We are requesting operation in the 1457-1477 MHz spectrum under separate STA-
STA will be filed upon approval from Jack Parker (AFTRCC Corp.)
