Kay; I was told the OAS conference being held in FT. Lauderdale is a level one security conference as designated by Home Land Security Office . The Broward Sheriff Office said they will have 500 assigned officers on detail for this event and the 700 MHz system will back up the 800 MHz system in the event someone takes the 800 system off the air which is what happened in Seattle.

Hello,

I received a call from John Kennedy this morning. He asked me to contact you in regards to the number of units that you are requesting, 500. The FCC (under most circumstances) asks for a justification when requesting more than 50 units. John has taken the application to his superiors for processing; they might require a justification for 500 units.

Kay

Hi John

I submitted our application online. However I am e-mailing you our documentation and attachments just in case the formatting gets corrupted. As we experienced in our first attempt when attaching our documentation online.

The attachments should include the following:

- Final application documentation
- Letter of Consent from WPPB-TV CH63
- E-mail of Clearance from SBE Local Coordinator

Thanks for your help in reviewing our application. Your input and guidance is greatly appreciated. Feel free to contact me with any questions or concerns.

--Janelle

Very good Ms. Balser. Thank you.

Please submit the corrected version of the description of this experiment and, if you have no objections, I will then start the coordination process once I have received it.
