

MRTC Motorsport Communications
MRTC, Ltd.
Application for Special Temporary Authority
File No. 0176-EX-ST-2017

PURPOSE OF STA AND FREQUENCY COORDINATION

The purpose of this STA is to further test an automobile racing communications system for voice and telemetry that is in the developmental stage. The tests will occur at a single, four-day test session in Florida at the Sebring Raceway. The system will be deployed at Sebring by the Rebellion Race Team. The race team will use the communications system on a developmental testing basis on behalf of and overseen by MRTC Motorsport Communications.

The dates during 2017 when this system will be deployed are March 15-18 inclusive.

The applicant requires seventeen VHF frequencies as specified in this application for duplex and simplex voice transmissions; a single simplex channel at UHF for voice transmission and a single UHF channel for telemetry from the race vehicles.

The applicant has consulted the ULS database with respect to the VHF and UHF channels sought and proposes what are believed to be unoccupied channels in the area of the Sebring International Motor Speedway.

The “stop buzzer” contact on site on behalf of the applicant is Mr. Bart Hayden, whose mobile number is 470-233-4186.

Other inquiries can be addressed to undersigned counsel for MRTC Motorsport Communications:
