Subject: FCC File No. 0936-EX-ST-2015

---

Message:

The frequency 169.60625 MHz is what appears on the document received by the applicant from the Porsche race team but it does appear to be an error. It must be 169.6025 MHz so please change the request to 169.6025 MHz and I will ensure that, if this STA is granted, that channel center is actually used.

Thank you.
