

MRTC Motorsport Communications
MRTC, Ltd.
Application for Special Temporary Authority
File No. 1686-EX-ST-2021

PURPOSE OF STA AND FREQUENCY COORDINATION

The purpose of this STA is to further test an automobile racing communications system for voice communications that is in the developmental stage. The tests will occur at the Porsche Experience Center in Los Angeles (which includes a test track) during the period November 14-19, 2021. The system will be deployed by the Porsche GT3R racing team. The race team will use the communications system on a developmental testing basis on the test track only, on behalf of and overseen by MRTC Motorsport Communications.

The applicant requires for this venue six VHF channels for duplex and simplex voice operations.

The applicant has consulted the ULS database with respect to the VHF channel ranges sought and proposes what are believed to be unoccupied channels in the area of the Porsche Experience Center track. Similar STAs have been granted for these same test operations at this and other venues in the past, and conducted without interference. However, should any interference arise during this experimental operation, all such operation will cease and not resume unless and until the interference is resolved to the reasonable satisfaction of any complainant.

The stop buzzer contact is Mr. Jens Meier, whose mobile telephone number is +49 1523 911 0813. However, a United States stop-buzzer contact is the undersigned counsel who can be reached at all times at 301-351-3795 (mobile).

All other inquiries can be addressed to undersigned counsel as follows:
