

EXHIBIT A

Pursuant to Section 5.61(a) of the Commission's rules, MSTV requests expedited processing of its request for STA (STA File No. 0323-EX-ST-2008). Expedited processing is requested to ensure that comprehensive studies can be conducted in a timely manner and this information can be submitted to FCC for consideration in ET Docket No. 04-186. Studies are intended to supplement FCC testing and could not be planned or conducted until after certain FCC tests were completed at its Laboratory and it was determined in what areas additional testing was needed or where testing raised areas for further investigation. MSTV believes that the information collected in these studies will provide information useful to the FCC in ET Docket No. 04-186 and is concerned that this work can not be completed if initiation of these studies must wait until normal processing and coordination is completed. For these reasons, MSTV respectfully requests that its STA application be granted expedited processing.
