Subject: FCC 0046-EX-ML-2013

---

Message:

The purpose of the modification is:

- 1) Add additional locations for testing
- 2) Update the FCC application to reflect the increase in bandwidth used and the modification of the carrier frequency - a Chirp feature was added that modifies the carrier frequency during transmission for improved radar discrimination accuracy. This changed the emission designator of the unit to 1G60Q3N.
