

Submit as an exhibit a vertical profile sketch of total structure including supporting building, if any, giving heights in meters above ground for all significant features. Clearly indicate existing portion, noting particulars of aviation obstruction lightly already available. Submit this sketch under the "Antenna Drawing" exhibit type

Antenna will be mounted in the nose of a test aircraft and tested in airspace either within 80 km of North Texas Regional Airport which is located in Denison, TX or 80 km of Eureka, TX. The antenna will be tested at altitudes less than 3100 meters. The test aircraft will be flown in accordance with FAA regulations and will not interfere with the operations of other aircraft. A sketch of a representative test aircraft is provided below with the intended location of the antenna.
