Message:

1) Are you going to be airborne while transmitting out of this transponder transmitter? If yes, then provide the altitude: The transponder will be from an airborne POD on-board a CESSNA 208B with a flight altitude between 15,000-22,000 feet.

2) If you're going to be airborne, will be this a manned or unmanned aircraft? - it will be a manned aircraft CESSNA 208B.
