Gentlemen:

Enclosed is the Remittance Advice form 159 with the confirmation number entered into the FCC Code 2 Block as requested.

I was concerned about the statement on your reply form which states that if payent is not received within 10 days, that another electronically filed application must be submitted. Since it is already past 10 days since the electronic filing, I have discussed that question with Mr. Carl Huie (202-418-2430) who referred me to Mr. Doug Young (202-418-2440). Mr. Young assured me that my STA application is on file and would not be dismissed or deleted because of any delay in receiving payment. For some reason the payment is not able to be executed on-line and I want to obviate any potential further delays. If there are any questions in this regard, Mr. Young requested me to refer you to him.

If there are any other questions or information that you need from me, I would appreciate a call at 479-848-3789. Thank you.

Sincerely,

Russell Nelson
