John,

You are correct. "Confidentiality" was NOT to have been requested for callsign WD2XQV. This call sign is open to public view just as the other call sign requests submitted.

Thank you

Ann Chester-Jones

Ms. Ann Chester-Jones,

Was confidentiality supposed to have been requested for callsign WD2XQV? This option is currently shown as being selected, but since no exhibits can be found requesting the need for confidentiality, it appears this option was accidentally selected in application 0125-EX-PL-2005 and has been so ever since.
