June 16, 2000

Keith Barnes  
Nextnet  
1102 2<sup>nd</sup> St. N.W.  
Waseca, MN. 56093

Dear Keith;

The Waseca Public Schools is willing to allow Nextnet to use our D block frequencies on the IFTS band to alpha test their system. We cannot commit to the entire time frame outlined in your letter of May 30, 2000 because we have not started negotiations with any other company that may want to lease these channels. We agree to allow your use of the channels until May-June 2001 or a contract is negotiated, whichever comes first.

In exchange for the free use of these channels, we would like your assistance, at no charge, in the evaluation of any proposal we receive from a company for the lease of these frequencies. We do not have the expertise to determine the quality of the proposal and would appreciate your expert advice in this area.

Please let us know when you start using the channels.

Please contact me if further information is desired.

Sincerely,

James Schmitt  
Superintendent of Schools
