Re: Request for Special Temporary Authority
On EBS Channels D1-D2 for Wireless Communications
Association Trade Show Demonstration

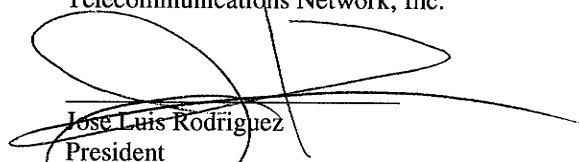

Dear Mr. Desmond:

Hispanic Information and Telecommunications Network, Inc. ("HITN"), licensee of D-Group EBS Station WHG442, Washington, DC, hereby consents to allow NextNet Wireless Inc. ("NextNet") temporary use of two of those channels (D1-D2) by Special Temporary Authority ("STA") in relation to a short-term equipment demonstration. As explained to us, the demonstration of NextNet's non line-of-site plug-and-play wireless access equipment will take place at the Wireless Communications Association's 2006 annual trade show in Washington, DC. NextNet will use HITN's spectrum only from June 26 through June 30. It is our understanding that this demonstration relates to equipment that will permit both commercial and educational entities to provide a low-cost, high-quality broadband services and content.

I confirm that HITN has consented to NextNet's use of its above-referenced EBS spectrum on a temporary basis for the above-described equipment demonstration purposes and the filing of this letter in association with NextNet's request for STA. HITN has required and NextNet has agreed to operate such demonstration on HITN's channels in strict compliance with all applicable rules and policies of the Federal Communications Commission.

Sincerely,

Hispanic Information and
Telecommunications Network, Inc.

Jose Luis Rodriguez
