March 22, 2005

Ann Chester-Jones
Nextnet Wireless
299 Johnson Ave, Suite 120
Waseca, MN. 56093

Dear Ann;

Waseca Public Schools gives permission for Nextnet to use our ITFS channels for experimental uses. The ITFS channels are in the D block of frequencies.

We grant this permission as long as the school does not lease the channels to another party. Should such a lease be granted by the Waseca School Board, this permission would then be retracted unless the leasee would allow it to continue.

Sincerely,

James Schmitt
Superintendent of Schools
