Subject:

FCC File # 0143-EX-ML-2005

---

Message:

NextNet is applying for an experimental license in the 3.6-3.8 GHz band to aid in the design and test of products intended exclusively for export to commercial, non-governmental customers in Europe, under the jurisdiction of the appropriate foreign governmental regulatory bodies, where this band is being used for the provision of broadband wireless service. It is not intended for commercial use in the United States.
