

STA File Number: 1060-EX-ST-2014

Description of the location and, if applicable, geographical coordinates of the proposed operation.

Development testing will occur at the Charlotte facility located at:

4205 Westinghouse Commons Drive
Charlotte, NC 28273
(see picture below)

Lat: 35.139009
Long: -80.975512

NIITEK intends to calibrate the overall response of the Part-15 accepted 3d-Radar system by making brief measurements of the system response in air. The calibration will occur outside of the building in the parking lot adjacent to the building.

The closest airport is the Charlotte Douglas International Airport (GPS Coordinates: N. 35.213889, W -80.943056), which is 8.83 km from the Charlotte facility.

Below is an aerial view of the Charlotte facility.
