Application Narrative for Proposed Equipment

Proposed Program

Nissan is proposing GPS within their automobile manufacturing buildings for testing purposes.

Objectives

We seek to accomplish the following objectives:

1. Illumination of the part of the manufacturing facilities, located at 300 Nissan Dr, Canton, MS and 983 Nissan Dr, Smyrna, TN with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within their automobiles to provide innovative applications and continue to provide safe products.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
