Ms. Claudia Cheek,

Please confirm that the response below pertains to the use of 1920-1990 MHz at 1000 watts in experimental applications 0054-EX-PL-2005, 0030-EX-ML-2005 and 0038-EX-ML-2005.

Mr. Kennedy

(1.) Can a lower power be requested? YES, whatever maximum allowed.

(2.) Also, can you confirm that mobile in this case means temporarily fixed locations within the area requested as opposed to transmitting while the transmitter is in motion? Yes, it will be temporarily set in a fixed location within the area requested.
