

**United States of America
FEDERAL COMMUNICATIONS COMMISSION
EXPERIMENTAL
RADIO STATION CONSTRUCTION PERMIT
AND LICENSE**

EXPERIMENTAL

(Nature of Service)

XD FX MO

(Class of Station)

WG2XII

(Call Sign)

0317-EX-PL-2012

(File Number)

NAME Nokia Siemens Networks US LLC

Subject to the provisions of the Communications Act of 1934, subsequent acts, and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions and requirements set forth in this license, the licensee hereof is hereby authorized to use and operate the radio transmitting facilities hereinafter described for radio communications in accordance with the program of experimentation described by the licensee in its application for license.

Operation: In accordance with Sec. 5.3(i) of the Commission's Rules

Station Locations

- (1) Arlington Heights, IL - NL 42-08-08; WL 87-59-56; MOBILE: , within 10 km
- (2) Arlington Heights, IL - NL 42-08-14; WL 87-58-57; MOBILE: , within 10 km
- (3) Palatine, IL - NL 42-09-12; WL 88-02-11; MOBILE: , within 10 km
- (4) Arlington Heights, IL - NL 42-05-04; WL 87-58-53; MOBILE: , within 10 km

Frequency Information

Arlington Heights, IL - NL 42-08-08; WL 87-59-56; MOBILE: , within 10 km

Frequency	Station Class	Emission Designator	Authorized Power	Frequency Tolerance (+/-)
758-768 MHz	FX	5M00G7D 5M00W7W 5M00G2D 5M00D7D	125 W (ERP)	
758-768 MHz	FX	5M00G7D 5M00W7W 5M00G2D 5M00D7D	125 W (ERP)	

This authorization effective March 29, 2013 and
will expire 3:00 A.M. EST December 31, 2013

**FEDERAL
COMMUNICATIONS
COMMISSION**

Frequency Information

Arlington Heights, IL - NL 42-08-08; WL 87-59-56; MOBILE: , within 10 km

788-798 MHz	MO	5M00G7D 5M00W7W 5M00G2D 5M00D7D	5 W (ERP)	

Special Conditions:

- (1) Operation is subject to prior coordination with the Society of Broadcast Engineers, Inc. (SBE); ATTN: Executive Director; 9102 North Meridian Street, Suite 305; Indianapolis, IN 46260; telephone, (866) 632-4222; FAX, (317) 846-9120; e-mail, executivedir@sbe.org; information, www.sbe.org.
- (2) L TE base stations will be located at four sites in and around Nokia Siemens offices in South Arlington Heights and Palatine, Illinois. In addition, Nokia Siemens would deploy up to 12 L TE low power "pica-sites" within one kilometer of each site and up to 20 portable devices within ten kilometers of each base station.
- (3) Nokia Siemens has analyzed information in the FCC's license databases and states that the proposed operation would not interfere or create a significant potential for harmful interference with any public safety operations in the 700 MHz band. The Illinois State Police, which use a portion of the subject frequencies for narrowband operations under a previous band plan, have concurred in Nokia Siemens' proposed experimental license.
- (4) Operation of the experiment will not be used in mission-critical operations or in the delivery of live transmissions in duties to protect life, property, or safety. Operations will be confined to a 1 0 kilometer radius of the four base station sites listed in the application.
- (5) Nokia Siemens has provided an overall project manager and in case of interference issues, "stop-buzzer" contact for these experiments: Sung Yun, Project Manager, 847-341-301 0; sung.yun@nsn.com.
- (6) Nokia Siemens understands that an experimental license only permits shared use of the subject radio frequencies and that it may have to coordinate with other entities licensed for experimental purposes. Nokia Siemens further understands that a separate concurrence from FirstNet will be required for renewal of this license.
- (7) All experimental operations by Nokia Siemens will be secondary, meaning that they must not cause interference to narrowband or broadband operations authorized on a primary basis, including in the spectrum licensed to FirstNet. Narrowband or broadband operations authorized on a primary basis, including in the spectrum licensed to FirstNet, have no obligation to mitigate any interference that such primary operations may present to the Nokia Siemens experimental operations.

Special Conditions:

- (8) FirstNet has not yet deployed in the geographic area covered by this application.
Nokia
Siemens understands that if, during the term of this license, FirstNet or its assigns or lessees,
plans to deploy in this area, Nokia Siemens may have to reduce the coverage or power levels
of its experimental transmissions or cease them entirely.
