Subject: Additional information for application 1606-EX-ST-2016
Attachments: DA-01-2435A1.pdf; ITU.API.Cover.Letter.Format.doc;
ITU.Cost.Recovery.Letter.Format.docx; ITUguidelinesforAPI.docx

Mr. Santangelo

The FCC will need additional information for your satellite application request. Please submit copies of the following:

1. Exhibit with a description of the mission, purpose and any government entity affiliation
2. An orbital debris analysis report (ODAR) that is final and includes any sign off signatures
3. ITU spacecap analysis filing. This will generate a database file. The file will need to sent to me directly as the ELS system only accepts pdf and jpeg files. You will need to change the extension from .mdb to .txt or it will get blocked by our email filter. Also, do not zip the file either or it will be blocked.
4. ITU spacecap API letter. A copy is attached.
5. An ITU cost recovery letter that the University will be responsible for any ITU cost. A copy is attached.

Regards
Tony Serafini
