

REQUEST FOR EXPEDITED ACTION

Northrop Grumman Ship Systems, Inc. (“NGSS”) respectfully requests expedited consideration and action on the attached application. NGSS requires authorization to use the requested frequencies, which are the HYDRA frequency Set S channels (S1 through S12), for intra-ship communications during the construction of the National Security Cutter, which is being built as part of the U.S. Coast Guard’s Deepwater Program under contract number DTTCG23-02-C-2DW001.
