

REQUEST FOR EXPEDITED ACTION

This is to request expedited consideration of the above-referenced application. Authorization for these HYDRA channels is urgently needed by June 1 to test the internal communication system on a National Security Cutter (NSC) being constructed pursuant to US Coast Guard contract DTG23-02-C-2DW001. Operation will be prior coordinated with the United States Navy, Pascagoula Ship Yard, Mr. Chuck Bardsley at (228) 769-4700. Stop Buzzer contacts are Mr. Bruce Cook cell (228) 366-6153 or Mr. Joe James cell (228) 366-6226. Frequencies were secured for this purpose under STA WE2XSG, however, the HYDRA system was delivered and is intended to operate on different channels than anticipated. Testing must commence June 1 to keep this ship on schedule. Given the national security purpose of this ship, your assistance in expediting consideration of this request is very much appreciated.
