

Government Contract and Stop Buzzer Information

Northrop Grumman Space & Mission Systems Corp. ("NGMS") is requesting this authorization to operate a fixed experimental radio station from July 1, 2008, until June 30, 2009, to conduct low level swept pulsed Continuous Wave (CW) tests on aircraft-based antenna receiver systems. The contract number for the program is W15P7T-07-D-W202. The contract point of contact is Matthew Perry, APM GR Modernization (Office: (732) 427-1838, Cell phone: (732) 822-7865, email: matthew.perry@us.army.mil).

The NGMS "stop buzzer" point of contact for the experimental authorization is Gary Infantino (Cell Phone: (916) 570-4365).
