Subject: EXT :WH 2XRS

Gary,

Please communicate to the FCC that FAA is recommending the following changes (operational conditions) on the IFF interrogator associated to WH 2XRS(NG 176657):

- 1- Blanking restriction be updated to 178-135 (transmission are allowed 135-178).
- 2- The 30 seconds quiet time follow a minute radiation be updated to radiation shall be performed in 25 minutes period.

Please let me know if you have any question.

Thanks
