Subject: RE: Classified Pending Applications

John,

WC2XRG 0036-EX-ML-2005 This modification can be canceled. The work that was to be done using this license, which does not expire until April 1, 2007, will be tested at PAX River Naval Air Station in place of here at our Linthicum site. I thought I understood Rod to let you know this about two weeks ago when you and he had a phone conversation. I was out of the office at the IEEE Radar Conference that week, but I did return a call to you this past week and left a message to you. I am sorry for the confusion on this matter.

If there are other questions or concerns, please don't hesitate to contact me.

Thank you,

Jan
