

Northrop Grumman Systems Corporation Request for Modification

Northrop Grumman Systems Corporation (NGSC) submits the attached Form 442 application, FCC File No. 0161-EX-CM-2020, to request modification of license WK2XHY to authorize transmission of a narrow pulse at 1392.1875 MHz. All other aspects of the license remain the same. This work is being performed for the purpose of conducting experimental operations described in the license application pursuant to AFRL/RQKDA Contract No. FA8650-18-C-7841.
