Subject: Request for Info - File #0215-EX-ML-2014

Message:

The reason I chose X is because the radar is not transmitting analog or digital "information". It is transmitting a continuous signal that has a changing frequency and is simultaneously listening for a change in that signal. Also, the grant of equipment authorization for this radar indicated 75M0FXN is the emission designator
(http://www.simrad-yachting.com/Root/DoC/Marine%20Radars/2877AT10_GRANT.pdf).
