

Description of Experimental Program

Northrop Grumman Systems Corporation ("Northrop Grumman"), the applicant, requests this experimental radio station authorization for an telemetry license to operations around Mojave, California, for two years in support of miscellaneous test loads on various government sponsored and NCTA programs. Northrop Grumman has coordinated the proposed operations with AFTRCC and has received conditional concurrence by the DoD Western Area Frequency Coordinator (see attached documents).

The Northrop Grumman point of contact (and cease buzzer) for the operations is Fred Berrong (Pager: 1-888-787-7317; Phone: (661) 272-7033; email: fred.berrong@ngc.com).
