

Contract Information and Request for Expedited Action

Northrop Grumman Systems Corporation (“NGSC”) is filing this Form 442 application for a new experimental radio station to cover telemetry operations from November 1, 2006, until November 1, 2006, in St. Augustine (St. Johns County), Florida, in association with the testing of the E-2D Advanced Hawkeye Aircraft under Contract No. N00019-03-N-005.

NGSC respectfully requests expedited processing and grant of this application as soon as possible, preferably before November 15, 2006. Expedited grant of this application, which has been prior coordinated with the Department of Defense, will serve the public interest because the program associated with proposed experimental facilities will serve to enhance national defense capabilities.
